VANE RELAYS WITH INDICATOR ATTACHMENT

Zachary C. Gillihan 2008

Order by Plate, Piece, Reference and Description

Drawing references are shown for convenience in checking material with shipping lists and invoices.

Piece	Ref.	Description	Drawing Reference
	A*	Style "T2V-13" Two-Element, Three-Position, Semaphore Track Indicator Relay, complete. Without Condensers.....	C-3707-43
	A1*	Style "T2V-13" Single Element, Three-Position, Semaphore Line Indicator Relay, complete.....	C-3707-43
	B*	Style "T2V-18" Two-Element, Three-Position, Semaphore Track Indicator Relay, complete. With Condensers.....	C-3707-43
	C*	Vane Relay having "Pointer" Indicators as shown are cataloged in Plates E-1020 and E-1025. The dial may be lettered D and E to indicate that a Two-position relay (Plate E-1020) is de-energized or energized; it may bear the letters as shown to indicate normal and reverse positions of a three-position relay, or colored discs may be used to represent position.	
	*	Orders must specify Voltage and Frequency of alternating current available, and number of normal and reverse contacts required. Unless otherwise specified normal and reverse contacts will be non-independent.
