

UNION SWITCH & SIGNAL COMPANY

Zachary C. Gillihan 2008

A

**MODEL 13 D. C. NEUTRAL RELAY
(EIGHT-POINT)**

Unless otherwise specified Relays will be furnished with silver to graphite front and silver to silver back contacts. (Low voltage contacts).

If high voltage contacts, or relays with slow or quick release are required, orders should so specify.

Shock absorber springs are not furnished unless called for. (See Plates E-4841 and E-5030).

The maximum contact combination is eight front and eight back non-independent contacts.
